Experience

UX Design Intern | Trimble

Portland, OR | May 2025 - Present

- Redesigning filtering systems in ProjectSight to improve adoption and usability, applying behavioral insights, competitive audits, and design system integration
- Contributing UX research and competitive analysis to guide AI feature discovery across multiple Trimble products, aligning insights with stakeholder needs

Cofounder & Product Designer | Voxel

Los Angeles, CA | Feb 2025 - May 2025

- Led product, brand, and UX design for a voice AI platform reducing no-shows for underserved clinics, informed by field research with healthcare teams and patients
- Shipped MVP in 10 weeks: designed UI, visual identity, pitch decks, and dev handoffs for Next.js voice agent demoed at USC product incubator

Product Designer | Guardian Inc.

Los Angeles, CA | Nov 2024 - Present

- Contributing design and research to a culturally responsive B2B EdTech platform used by 100+ diverse users
- Creating wireframes, journey maps, and Figma prototypes for new features; led UX research and usability testing to improve accessibility and refine designs with engineering

Research Assistant | USC Keck School of Medicine

Los Angeles, CA | Aug 2024 - May 2025

- Supported Dexcom CGM research in Hispanic/Latinx communities; conducted mixed-method research to improve pre-diabetic patient outcomes
- Recruited participants and supported IRB submission; created Manual of Procedures for research operations

Education

B.A. Cognitive Science, Specialization in Web Development | University of Southern California

Los Angeles, CA | Aug 2022 - May 2026

- Relevant Courses: Design for User Experience, Front-End Web Development, Statistical & Research Methods
